**Re: Changes to the TTT West Coast, Inc. 401(k) Retirement Savings Plan**

Dear TTT West Coast, Inc. 401(k) Retirement Savings Plan Participant:

TTT West Coast, Inc. is committed to periodically reviewing the TTT West Coast, Inc. 401(k) Retirement Savings Plan to make sure it continues to help you meet your retirement and financial goals. Among the things considered are the range of investment options available through the Plan, investment option performance and value, and whether the Plan gives you access to services that complement your account.

As a result of a recent review, TTT West Coast, Inc. has decided to make the following changes to the Plan's investment lineup.

The changes described below will take place without any action required on your part. However, if you are not satisfied with how your current investment elections will be modified, you will have the opportunity to make changes. Go to the What Do I Need to Do? sections to learn more.

Sincerely,  
Fidelity Investments

## CHANGES TO THE TTT WEST COAST, INC. 401(K) RETIREMENT SAVINGS PLAN

### Your New Investment Options

When the market closes (generally 4 p.m. Eastern time) on April 02, 2018, the following investment options will be added to the investment lineup. Please see the Investment Option Descriptions section of this letter for more details.

- Fidelity® Blue Chip Growth Fund Class K
- Fidelity® Contrafund® Class K
- Fidelity® Diversified International Fund Class K
- Fidelity® Growth Company Fund Class K
- MFS® Value Fund Class R4
- Fidelity Freedom Income Fund Class K
- Fidelity Freedom 2005 Fund Class K
- Fidelity Freedom 2010 Fund Class K
- Fidelity Freedom 2015 Fund Class K
- Fidelity Freedom 2020 Fund Class K
- Fidelity Freedom 2025 Fund Class K
- Fidelity Freedom 2030 Fund Class K
- Fidelity Freedom 2035 Fund Class K
- Fidelity Freedom 2040 Fund Class K
- Fidelity Freedom 2045 Fund Class K
- Fidelity Freedom 2050 Fund Class K
- Fidelity Freedom 2055 Fund Class K
- Fidelity Freedom 2060 Fund Class K

### What Do I Need to Do?

You do not need to do anything. However, if you would like to request changes to your account, log on to Fidelity NetBenefits® at [www.401k.com](http://www.401k.com) or call 800-835-5097, Monday through Friday, between 8:30 a.m. to 8:30 p.m. Eastern Time.

### Share Class Changes

When the market closes (generally 4 p.m. Eastern time) on April 02, 2018, the share class of one or more investment option offered through the Plan will change. As a result, the fund codes, ticker symbols, and expense ratios will change. The new share class will offer you the same investment strategy and risk, but the overall expenses will change. See the following chart for details. The transfer of balances will appear as an exchange on your account history and quarterly statement.

 Old Share Class	Will transfer to	New Share Class

Expense Ratio as of February 12, 2018. For the most up-to-date information related to gross and net expense ratios go to Fidelity NetBenefits® at [www.401k.com](http://www.401k.com).

A short-term redemption fee will not be charged as part of this reallocation, but existing short-term redemption fee periods (if any) will move from the transferring fund to the new fund. If you request a change either before or after the transition without satisfying the required holding period, you may incur a short-term redemption fee.

### What Do I Need to Do?

You do not need to do anything. However, if you would like to request changes to your account, log on to Fidelity NetBenefits® at [www.401k.com](http://www.401k.com) or call 800-835-5097, Monday through Friday, between 8:30 a.m. to 8:30 p.m. Eastern Time.

### Additional Information

The dates shown are based on the timing and accuracy of a variety of factors, including the transfer of data, receipt of instructions, and receipt of assets. Changes in any of these factors may result in changes to the dates and timing, including the dates on which, and thus the prices at which, assets in your account are sold and/or reinvested.

#### TTT West Coast, Inc. 401(k) Retirement Savings Plan Default Fund

If you have not already made an investment election decision, we encourage you to review the investment options available to you. However, if no elections are made, TTT West Coast, Inc. has directed Fidelity to invest your future contributions in a Fidelity Freedom Income Fund Class K based on your current age and assuming a retirement age of 65.

#### What Do I need to Do?

If you do not want future contributions to default into the investment options shown, or if you wish to change how your current balance(s) are invested, please log on to Fidelity NetBenefits® at [www.401k.com](http://www.401k.com) or call 800-835-5097, Monday through Friday, between 8:30 a.m. to 8:30 p.m. Eastern Time.

As a reminder, if you have already made an investment election for your contributions through Fidelity, the previous default schedule does not apply.

#### Target Date Age Chart

Your contributions will be directed to a Fidelity Freedom Fund - Class K as indicated in the mapping chart located in the *Your New Investment Options, Investment Options Being Removed and Share Class Change* sections. TTT West Coast, Inc. has chosen a Fidelity Freedom Fund - Class K based on your date of birth and the assumption that you will retire at age 65. Simply find your date of birth range in the following chart to determine which fund your contributions will be directed to.

Date of Birth Range	Fidelity Freedom Fund - Class Ks	Retirement Date Range
On or before 12/31/1937	Fidelity Freedom Income Fund Class K Ticker Symbol: FNSHX Gross Expense Ratio: 0.420%	On or before 2002
01/01/1938 - 12/31/1942	Fidelity Freedom 2005 Fund Class K Ticker Symbol: FSNJX Gross Expense Ratio: 0.440%	2003 - 2007

On or after 01/01/1993	Fidelity Freedom 2060 Fund Class K Ticker Symbol: FNSFX Gross Expense Ratio: 0.640%	On or after 2058

Date of birth ranges were selected by your Plan Sponsor.

Expense Ratio as of February 12, 2018. For the most up-to-date information related to gross and net expense ratios go to Fidelity NetBenefits® at [www.401k.com](http://www.401k.com).

#### Important Note if You Use Automatic Rebalance

If your existing Automatic Rebalance election includes an old investment option, your election will automatically be updated to replace the old investment option.

If you have questions or need assistance with the Automatic Rebalance feature, log on to Fidelity NetBenefits® at [www.401k.com](http://www.401k.com) or call 800-835-5097, Monday through Friday, between 8:30 a.m. to 8:30 p.m. Eastern Time.

#### Go Paperless

Tired of mailbox clutter? You can significantly reduce paper mail by providing us your email address and updating your mail preferences to electronic delivery.

Log on to Fidelity NetBenefits at [www.401k.com](http://www.401k.com) and go to Your Profile.

#### Investment Option Descriptions

##### Fidelity Freedom 2005 Fund Class K

**Ticker:** FSNJX

**Gross Expense Ratio:** 0.44% as of 02/12/2018

**Objective:** Seeks high total return until its target retirement date. Thereafter, the fund's objective will be to seek high current income and, as a secondary objective, capital appreciation.

**Strategy:** Designed for investors who anticipate retiring in or within a few years of the fund's target retirement year at or around age 65 and plan to gradually withdraw the value of their account in the fund over time. Investing in a combination of Fidelity domestic equity funds, international equity funds (developed and emerging markets), bond funds, and short-term funds (underlying Fidelity funds). Allocating assets among underlying Fidelity funds according to a "neutral" asset allocation strategy that becomes increasingly conservative until it reaches an allocation similar to that of the Freedom Income Fund - approximately 17% in domestic equity funds, 7% in international equity funds, 46% in bond funds, and 30% in short-term funds (approximately 10 to 19 years after the target year). Ultimately, the fund will merge with the Freedom Income Fund. Buying and selling futures contracts (both long and short positions) in an effort to manage cash flows efficiently, remain fully invested, or facilitate asset allocation. Through an active asset allocation strategy, the Adviser may increase or decrease neutral asset class exposures by up to 10 percentage points for equity (includes domestic and international equity funds), bond and short-term funds to reflect the Adviser's market outlook, which is primarily focused on the intermediate term. The Adviser may also make active asset allocations within other asset classes (including commodities, high yield debt, floating rate debt, real estate debt, inflation-protected debt, and emerging markets debt) from 0% to 10% individually but no more than 25% in aggregate within those other asset classes. The Adviser may continue to seek high total return for several years beyond the fund's target retirement date in an effort to achieve the fund's overall investment objective.

**Risk:** The investment risk of each Fidelity Freedom Fund changes over time as its asset allocation changes. These risks are subject to the asset allocation decisions of the Investment Adviser. Pursuant to the Adviser's ability to use an active asset allocation strategy, investors may be subject to a different risk profile compared to the fund's neutral asset allocation strategy shown in its glide path. The funds are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and

abroad, and may be subject to risks associated with investing in high-yield, small-cap, commodity-linked, and foreign securities. Leverage can increase market exposure, magnify investment risks, and cause losses to be realized more quickly. No target date fund is considered a complete retirement program and there is no guarantee any single fund will provide sufficient retirement income at or through retirement. Principal invested is not guaranteed at any time, including at or after the funds' target dates.

**Short Term Trading Fee:** None

**Who may want to invest:**

- Someone who is seeking an investment option intended for people in or very near retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- On July 20, 2017, an initial offering of the Fidelity Freedom K class took place. Returns and expenses prior to that date are those of the Freedom (retail) class. Had K class expenses been reflected in the returns shown, total returns would have been higher.

**Fidelity Freedom 2010 Fund Class K**

**Ticker:** FSNKX

**Gross Expense Ratio:** 0.47% as of 02/12/2018

**Objective:** Seeks high total return until its target retirement date. Thereafter, the fund's objective will be to seek high current income and, as a secondary objective, capital appreciation.

**Strategy:** Designed for investors who anticipate retiring in or within a few years of the fund's target retirement year at or around age 65 and plan to gradually withdraw the value of their account in the fund over time. Investing in a combination of Fidelity domestic equity funds, international equity funds (developed and emerging markets), bond funds, and short-term funds (underlying Fidelity funds). Allocating assets among underlying Fidelity funds according to a "neutral" asset allocation strategy that becomes increasingly conservative until it reaches an allocation similar to that of the Freedom Income Fund - approximately 17% in domestic equity funds, 7% in international equity funds, 46% in bond funds, and 30% in short-term funds (approximately 10 to 19 years after the target year). Ultimately, the fund will merge with the Freedom Income Fund. Allocating assets among underlying Fidelity funds according to a "neutral" asset allocation strategy that becomes increasingly conservative until it reaches an allocation similar to that of the Freedom Income Fund - approximately 17% in domestic equity funds, 7% in international equity funds, 46% in bond funds, and 30% in short-term funds (approximately 10 to 19 years after the target year). Ultimately, the fund will merge with the Freedom Income Fund. Buying and selling futures contracts (both long and short positions) in an effort to manage cash flows efficiently, remain fully invested, or facilitate asset allocation. Through an active asset allocation strategy, the Adviser may increase or decrease neutral asset class exposures by up to 10 percentage

points for equity (includes domestic and international equity funds), bond and short-term funds to reflect the Adviser's market outlook, which is primarily focused on the intermediate term. The Adviser may also make active asset allocations within other asset classes (including commodities, high yield debt, floating rate debt, real estate debt, inflation-protected debt, and emerging markets debt) from 0% to 10% individually but no more than 25% in aggregate within those other asset classes. The Adviser may continue to seek high total return for several years beyond the fund's target retirement date in an effort to achieve the fund's overall investment objective.

**Risk:** The investment risk of each Fidelity Freedom Fund changes over time as its asset allocation changes. These risks are subject to the asset allocation decisions of the Investment Adviser. Pursuant to the Adviser's ability to use an active asset allocation strategy, investors may be subject to a different risk profile compared to the fund's neutral asset allocation strategy shown in its glide path. The funds are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, commodity-linked, and foreign securities. Leverage can increase market exposure, magnify investment risks, and cause losses to be realized more quickly. No target date fund is considered a complete retirement program and there is no guarantee any single fund will provide sufficient retirement income at or through retirement. Principal invested is not guaranteed at any time, including at or after the funds' target dates.

**Short Term Trading Fee:** None

**Who may want to invest:**

- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

**Footnotes:**

**Fidelity Freedom Income Fund Class K**

**Ticker:** FNSHX

**Gross Expense Ratio:** 0.42% as of 02/12/2018

**Objective:** Seeks high total current income and, as a secondary objective, capital appreciation.

**Strategy:** Investing in a combination of Fidelity domestic equity funds, international equity funds (developed and emerging markets), bond funds, and short-term funds (underlying Fidelity funds). Allocating assets among underlying Fidelity funds according to a stable "neutral" asset allocation strategy of approximately 17% in domestic equity funds, 7% in international equity funds, 46% in bond funds, and 30% in short-term funds. Buying and selling futures contracts (both long and short positions) in an effort to manage cash flows efficiently, remain fully invested, or facilitate asset allocation. Through an active asset allocation strategy, the Adviser may increase or decrease neutral asset class exposures by up to 10 percentage points for equity (includes domestic and international equity funds), bond and short-term funds to reflect the Adviser's market outlook, which is primarily focused on the intermediate term. The Adviser may also make active asset allocations within other asset classes (including commodities, high yield debt, floating rate debt, real estate debt, inflation-protected debt, and emerging markets debt) from 0% to 10% individually but no more than 25% in aggregate within those other asset classes.

**Risk:** The fund is subject to risks resulting from the asset allocation decisions of the Investment Adviser. Pursuant to the Adviser's ability to use an active asset allocation strategy, investors may be subject to a different risk profile compared to the fund's neutral asset allocation strategy shown in its glide path. The fund is subject to the volatility of the financial markets, including that of equity and fixed income investments. Fixed income investments entail issuer default and credit risk, inflation risk, and interest rate risk (as

interest rates rise, bond prices usually fall and vice versa). This effect is usually more pronounced for longer-term securities. Leverage can increase market exposure, magnify investment risks, and cause losses to be realized more quickly. No target date fund is considered a complete retirement program and there is no guarantee any single fund will provide sufficient retirement income at or through retirement. Principal invested is not guaranteed at any time, including at or after the funds' target dates.

**Short Term Trading Fee:** None

**Who may want to invest:**

- Someone who is seeking an investment option intended for people in retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option and looking primarily for the potential for income and, secondarily, for share-price appreciation.

**Fidelity® Blue Chip Growth Fund Class K**

**Ticker:** FBGKX

**Gross Expense Ratio:** 0.59% as of 02/12/2018

**Objective:** Seeks growth of capital over the long term.

**Strategy:** Normally investing at least 80% of assets in blue chip companies (companies whose stock is included in the S&P 500 or the Dow Jones Industrial Average, and companies with market capitalizations of at least \$1 billion if not included in either index). Investing in companies that FMR believes have above-average growth potential (stocks of these companies are often called "growth" stocks). Normally investing primarily in common stocks of well-known and established companies.

**Risk:** The value of equity securities fluctuates in response to issuer, political, market, and economic developments. In the short term, equity prices can fluctuate dramatically in response to these developments. Different parts of the market and different types of equity securities can react differently to these developments. For example, 'growth' stocks can react differently from 'value' stocks. Foreign securities, foreign currencies, and securities issued by U.S. entities with substantial foreign operations can involve additional risks. You may have a gain or loss when you sell your shares.

**Short Term Trading Fee:** None

**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The S&P 500® Index is a registered service mark of The McGraw-Hill Companies, Inc., and has been licensed for use by Fidelity Distributors Corporation and its affiliates. It is an unmanaged index of the common stock prices of 500 widely held U.S. stocks that includes the reinvestment of dividends.
- The Dow Jones Industrial Average (DJIA) is an unmanaged price-weighted index and is the most widely used indicator of how the country's industrial leaders are performing. Also known as "the Dow," this is a formula based on the stock prices of 30 major companies chosen from sectors of the economy most representative of our country's economic condition.
- On May 9, 2008, an initial offering of the retirement (K) class took place. Returns and expenses prior to that date are those of the non-K, non-advisor class. Had K class expenses been reflected in the returns shown, total returns would have been higher.

**Fidelity® Contrafund® Class K****Ticker:** FCNKX**Gross Expense Ratio:** 0.58% as of 02/12/2018**Objective:** Seeks capital appreciation.

**Strategy:** Investing in securities of companies whose value FMR believes is not fully recognized by the public. Investing in either 'growth' stocks or 'value' stocks or both. Normally investing primarily in common stocks.

**Risk:** The value of the fund's domestic and foreign investments will vary from day to day in response to many factors. Stock values fluctuate in response to the activities of individual companies, and general market and economic conditions. Investments in foreign securities involve greater risk than U.S. investments. You may have a gain or loss when you sell your shares.

**Short Term Trading Fee:** None**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- On May 9, 2008, an initial offering of the retirement (K) class took place. Returns and expenses prior to that date are those of the non-K, non-advisor class. Had K class expenses been reflected in the returns shown, total returns would have been higher.

**Fidelity® Diversified International Fund Class K****Ticker:** FDIKX**Gross Expense Ratio:** 0.82% as of 02/12/2018**Objective:** Seeks capital growth.

**Strategy:** Normally investing primarily in non-U.S. securities. Normally investing primarily in common stocks.

**Risk:** Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks, all of which are magnified in emerging markets.

**Short Term Trading Fee:** None**Who may want to invest:**

- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

**Fidelity® Growth Company Fund Class K****Ticker:** FGCKX**Gross Expense Ratio:** 0.75% as of 02/12/2018**Objective:** Seeks capital appreciation.

**Strategy:** Normally invests primarily in common stocks of domestic and foreign issuers that Fidelity Management & Research Company (FMR) believes offer the potential for above-average growth. Growth may be measured by factors such as earnings or revenue. Uses fundamental analysis of each issuer's financial condition and industry position and market and economic conditions to select investments.

**Risk:** The value of the fund's domestic and foreign investments will vary from day to day in response to many factors, such as adverse issuer, political, regulatory, market, or economic developments. Stock values fluctuate in response to the activities of individual companies, and general market and economic conditions. You may have a gain or loss when you sell your shares. Foreign investments involve greater risks than those of U.S. investments. 'Growth' stocks can perform differently from the market as a whole and other types of stocks and can be more volatile than other types of stocks.

**Short Term Trading Fee:** None

**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

**MFS® Value Fund Class R4**

**Ticker:** MEIJX

**Gross Expense Ratio:** 0.59% as of 02/12/2018

**Objective:** The investment seeks capital appreciation.

**Strategy:** The fund normally invests the fund's assets primarily in equity securities. Equity securities include common stocks and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. MFS focuses on investing the fund's assets in the stocks of companies it believes are undervalued compared to their perceived worth (value companies).

**Risk:** Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Short Term Trading Fee:** None

**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with the volatility of large-cap stocks and value-style investments.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 04/01/2005. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 01/02/1996, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
- As of 09/12/2017, Fidelity was notified this fund changed its name from MFS Value Fund Class R4. See the fund's prospectus for any additional details.

**Before investing in any mutual fund, consider the investment objectives, risks, charges, and expenses. Contact Fidelity for a prospectus or, if available, a summary prospectus containing this information. Read it carefully.**

For a mutual fund, the expense ratio is the total annual fund or class operating expenses (before waivers or reimbursements) paid by the fund and stated as a percentage of the fund's total net assets. Expense ratios change periodically and are drawn from the fund's prospectus. For more detailed fee information, see the fund prospectus or annual or semiannual reports.
